

Councillor  
**William Maslin**

30 March 2009

**For Immediate Release**

To the editor,

I am writing with regards to the article 'Hull's news is junk mail' which appeared in *The Weekend Advertiser* on 28 March 2009.

I guess the next thing a minority of Riverina constituents are going to be complaining about is the expense incurred travelling around the electorate attending presentations and being available for interviews at various centres throughout the Riverina.

One of the hottest topics in my constituency of the Shire of Gundagai currently is Digital TV and reception. Thankfully Hull's Happenings has provided the opportunity to enlighten my constituents.

I believe that a newsletter in this case is the most effective way of communicating important messages and key themes to constituents in an electorate that spans 42,201 km<sup>2</sup> and is covered by various newspapers and television stations with their own objectives.

I throw my full support behind Mrs Hull and Hull's Happenings and I look forward to reading the Easter edition.

Yours faithfully,  
Cr. William Maslin
